Paper Presentation Guidelines

Participants are required to present their papers under one of the following themes:

- 1. AI in Industry, Education, Healthcare & Smart Cities – Exploring the transformative role of Artificial Intelligence in shaping various domains.**
- 2. Signal, Image and Video Processing – Innovative methods and applications in multimedia and computer vision.**
- 3. Data Science and Cybersecurity Technologies – Harnessing data for insights while ensuring digital safety and privacy.**
- 4. Embedded Systems, IoT and Advanced Communication Technologies – Smart, connected solutions for the future of communication and automation.**

Each participant/team should select one theme and prepare their paper and presentation accordingly.
